

## Jaguar MKVII 1953

**SOLD!**

Project gone wrong? Jaguar MK7, 1953, chassisnumber 735... Original LHD spec, USA import years ago. It was broken years ago, not in the most subtle way. As you can see in the pictures, most of the body is there. Both sides, wings, bonnet, spats, all windows, woodwork, doorhandles, hinges, chassis with ID plate, 2 wheels, woodwork, front bucketseat frames and springs, no papers. Milage is fictional, as there is no dash. Chassis not in the pictures, but is there. Feel free to contact me for more information!
